(Continued from page 2) 1914-MEMORIAL HALL-1916 Placeting upon the of the principal significant of the town, adjoining the Town that at the interpretation of Grain and Amess attents. It is eventual and it all respects excellently substead to the principal and it and respects excellently substead to the particular and substead expenses of their passersel, agricultural and evokard country jung on their side. Away to the marth-mast the risered Ophir country is swent by the eye tringing to mind things which are writ large in our own and our Communescolith's industry literature and evokard in the storing pinners delived and brought to thath Ametridia's first field, the hands which see the formulation of a glorieous future by attracting in the shower men of the type which build actions. What industable sources, patientes, perseverance, faithful powers of endurance possevened thing. No pictualist to two thick actions to reduct the work that the control of the desire that had chosen by File uwn good plan to hide away where attracting and forcition were second in minored. We who tenne after them grather the fruits of their taken, secure by a heritage which is given to the south-sust, the the application to the south-sust, the the application to the south-sust, the the spirit shale accured in a heritage which is given bear of the dead. Some were posser taken of the dead, some were in the sort made hard and grilly for the survives which they give to their retiness and the authors list of their taken, secure by a heritage which is drawn them and we know his and doop hand with the linguished the survives which is because the the survives that half door their taken, and the survives which is become the his and we know his hard and sort work that half door their works that half door their works that half door their the survives which is because the his and work half worth of the passes of the door them. They tought for programs to the origination of the print which administed them. They tought for printens the print of the print of the present in the worth less and the pri whose praises men sing and whose memory is cherished. Twas such a spirit which presupted the raining of the Manufal Hall to the war heroes ahe filed forth from Oranga and district in participate in the Grant War.

Anzac Day in Orange

A DESCRIPTION.

A DESCRIPTION.

The building itself is a time addition to the addressments of the town, and reflects the affective credit on the architect. Mr. J. P. Mildean. It is utilisated in Austra affects, next to the Town itself, and stands on a frontage of 30 feet by a depth of 30 feet. The atric architecture adopted is of the Durie school, and, with its boid orbuna, and heary countes, gives a first above of streams and stands of the first architecture adopted in a first above of streams and stability. The mather of streams and stability. The mather of streams and stability. The mather of streams and stability is a projecting ladematic. With a heavy iron railing, supported by distanced of the stable facade. The cumunit work as the portion is a week of art; and was rarried out by Messars Bartlett and lane, of Orange. Between the column, the brickwark is of firstney pressed british, tuchpointed, which is the various forms letter relief and gives a plenates of first to the whole. The unit entrance to the bridging is through a spacious by houself of the wise, which is intercepted by houself of Onessealand made and by houself of Onessealand made and the town to the wise.

45), VVEQUESUAY ZO Apple to the series of parameters and antercepted by bound for Quantumiand mapic swing duero, stated with bowelied piate glass, and chaburately finished with munified compre, with curnier over same all in maple. At the send of the entransibility is a series of the entransibility of the manufacture of the building. Surpense has been apared to make the parties of the building. Surpense has been apared to make the which is was apecially assigned. The room is octanized in the building a suitable abrane for housing the bour roise, for which it was apecially assigned.
